SUMMARY

Full Stack Software Developer with experience building and deploying production web applications using React, Node.js, Express, PostgreSQL, and cloud platforms. Skilled in designing REST APIs, implementing authentication and authorization systems, developing relational database architectures, and deploying scalable applications to modern hosting environments. Passionate about building user-focused software and continuously expanding expertise in full stack development and AI technologies.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3, C#

Frontend: React, Vite, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

Deployment: Render, Vercel, Docker, Azure

AI: OpenAI API, LangChain, Hugging Face, Prompt Engineering

Tools: Git, GitHub

PROJECTS

Wedding Budget | GitHub: [Drew-Andersen/VowWallet](#) | Deployed: [Wedding Budget](#)

- *Summary:* A full-stack SaaS platform deployed to production that enables couples to collaboratively manage wedding budgets through separate accounts while securely inviting family and guests with view-only access.
- *Role:* Architected, developed, and deployed the application, implementing secure JWT authentication, role-based authorization, shared multi-user budgeting, invitation-based access, expense and payment tracking, and RESTful APIs backed by PostgreSQL.
- *Tools:* React, Node.js, Express.js, PostgreSQL, JWT, Bootstrap, Render, Vercel

Vintage Vault | GitHub: [Drew-Andersen/Vintage-Vault](#) | Deployed: [Vintage Vault](#)

- *Summary:* A marketplace for vintage items, where users can discover, browse, and purchase vintage goods from different time periods.
- *Role:* Designed and developed the full stack marketplace, implementing user authentication and responsive design.
- *Tools:* MongoDB, React, Node.js, Bootstrap, JWT, Express

Fitness Buddy | GitHub: [Drew-Andersen/Fitness-Buddy](#) | Deployed: [Fitness Buddy](#)

- *Summary:* A fitness tracking app designed to help users track workouts, progress, and set fitness goals.
- *Role:* Full stack development, focusing on the database and front-end design.
- *Tools:* PostgreSQL, Tailwind, Node.js, Handlebars, Express

EXPERIENCE

Major Accounts Associate Niagara Conservation Corp.

July 2025 - Current
Atlanta, GA

- *Daily communications with offshore factories regarding order status, shipment schedules and*
- *Create Sales and Purchase orders for Home Depot PO'S received as needed.*
- *Generate commercial invoices for PO's using the MAERSK container logistics company e-doc system from container information sent from each of the factories.*
- *Maintain files for all Home Depot PO'S by shipment window.*

Operations - Account Manager TCW Inc.

2020 – 2024
Savannah, GA

Managed key accounts and ensured timely delivery of export containers in collaboration with the Georgia Ports Authority. Streamlined operations and saved costs for clients through proactive problem-solving and data-driven decisions.

Key Accomplishments:

- *Coordinated with clients to ensure timely freight delivery while managing per diem and storage fees*
- *Developed and implemented custom Google Sheets formulas to track container arrival schedules, improving visibility and enabling team members to make more efficient, timely decisions.*

Health Promotion and Wellness Coordinator Southeast Georgia Health System

2018 – 2020
Brunswick, GA

Worked with other employees to help better their health. Provided discounts on health insurance for employees. Conducted Biometric screenings.

Key Accomplishments:

- *Developed personalized fitness plans and nutrition counseling, leading to a 30% improvement in employee health metrics.*
- *Became a certified nutritionist, offering employees no-cost nutrition plans that improved their overall health outcomes.*
